We are continuously working to improve the accessibility of content on our website. Below, you'll find a few recommendations to help make your browsing experience more accessible:

**If you have trouble seeing web pages**, the US [Social Security Administration](#) offers these tips for optimizing your computer and browser to improve your online experience.

- [Use your computer to read web pages out loud](#)
- [Use the keyboard to navigate screens](#)
- [Increase text size](#)
- [Magnify your screen](#)
- [Change background and text colors](#)
- [Make your mouse pointer more visible \(Windows only\)](#)

If you are looking for **mouse and keyboard alternatives**, speech recognition software such as [Dragon Naturally Speaking](#) may help you navigate web pages and online services. This software allows the user to move focus around a web page or application screen through voice controls.

**If you are deaf or hard of hearing**, you can get a transcript of the video on our main page by clicking the button next to the video. There is no other audio on our website.

If you need further assistance, we invite you to contact us at 813-973-4300.
